

# MOAZRAHEEM

📍 Faisalabad, Pakistan    ✉️ moazraheem391@gmail.com    ☎️ 03019739945

Well-skilled and motivated MERN Stack developer with almost one year of hands-on experience in building responsive, user-centric web applications. Highly proficient in React.js, Node.js, Express, MongoDB, HTML, CSS, and JavaScript. Possesses very deep expertise in the modern web development frameworks and the principles of responsive design and user experience (UX). Strong dedication to high-quality, scalable websites and applications. I would like to take my skills into practice and contribute to the success of a forward-thinking organization

## Education

**Government College University Faisalabad** - Faisalabad | Software Engineering, 2024 | 3.0 GPA

**DPS College** - Faisalabad | Fsc Pre-Engineering, 2024 | 75%

**Royal Grammar School** - Faisalabad | Matric, 2024 | 84%

## Experience (less than 1 year)

### Instructor

September 2024 - Present

#### **Innvoytech** - Faisalabad, Pakistan

As a dedicated instructor at InnvoyTech, teach different forms of web development to the trainee developers to become comfortable and confident with web-related skills. My areas of interest in teaching are HTML, CSS, JavaScript, and MERN stack programming, along with creating hands-on projects directly related to real-world applications. Develop lesson plans in a way to ensure that practical knowledge about the design of responsive websites, modern user interfaces, and dynamic web applications is acquired by the student. Foster a collaborative learning environment as your students find their path through mentoring and support to help them achieve their career goals in the world of web development.

### Frontend Developer

July 2023 - January 2024

#### **Pak Freelancer Software House** - Faisalabad, Pakistan | Jul 2023 - Jan 2024

Here's a concise paragraph version:

At Pak Freelancer Software House, Wapda City, FSD, I spent 6 months developing responsive and user-friendly web applications using HTML5, CSS3, and JavaScript. I focused on writing optimized code to ensure fast-loading pages and smooth user interactions. By applying responsive design principles, I ensured consistent user experiences across various devices
